A History of Excellent Service & Quality

CCM, LLC has been a premier general contracting firm in the Denver area since 1999 with a varied portfolio that includes custom homes and residential remodeling.

Our history of excellent service and quality standards continues today with a professional team that brings many years of experience, to each project we undertake.

It is our vision to create homes of extraordinary beauty and superior quality design to exist in harmony with their surroundings, as well as to give you the living experience you deserve.

We consider every aspect of aesthetic appeal and functionality, including energy efficient products and materials. We are always open to clients' suggestions and work with them throughout the construction process, from groundbreaking to completion of the final walk-through.

We are committed to creating value in every home and making your home building process an excellent one, full of enjoyment and excitement. With our whole attention focused on you, we are determined to help build the home you have always dreamed you would have.

It's All About You & Your Family

YOU drive the process, not us. You bring the vision, and we build it - that's how we turn dreams into reality at CCM. We offer a free consultation to all prospective clients, during which we discuss your vision, the scope of work that needs to be completed, and an estimated budget. We take the time to listen and understand your needs and your expectations.

Our honest and proactive approach is an important part of our overall focus. Dedication to every client is at the heart of what we do. We believe that building a home begins with a dedication to customer service before, during and after. CCM strives to exceed customer expectations in every way possible, while promising an exciting journey to your dream home.
